Dear Nicola,

In respect of the application submitted to convert 2 retail units into 1 community space in Rooksdown, planning application reference: 18/02603/ROC.

Our response on the proposed community provision is as follows:

“The provision of additional community space is critical to this area as the existing facilities are at full capacity. There is a defined need in the area to provide a variety of community based activity which particularly addresses social isolation, due to its location. The community association has a strong business case for community investment with a commercial focus to enable sustainability of its services. This proposal meets A4 of the Community Buildings Strategy.”

Please note that the above response has been agreed by the Head of Borough Development and Implementation.

Best wishes,

Emily
